THRIFT PLEDGE.
Because I am a loyal American, because my country needs my help, because what I save will help me and help it save in return will help the whole world, I promise: live economically and save all that I can; to set aside regularly a portion of what I earn and loan it to my Government by investing it in War Savings Stamps.

VOLUME NO. 11

VERNON, WILBARGER COUNTY, TEXAS, JUNE 24, 1919

NUMBER 46

HOWARD HEATH IS RECOMMENDED FOR D.S.C. FOR BRAVERY

Vernon Boy Is Also Promoted to Rank of Sergeant After Return to United States—Displayed Unusual Heroism to Save Company From Annihilation by Enemy.

Edgar Howard Heath, son of Mr. and Mrs. N. R. Heath of this city, has been recommended for the Distinguished Service Cross for bravery in action October 13, 1918. The citation was held up for some time on account of the Company commander not having the required blanks to get the recommendation through.

Captain Paul C. Albright, commanding Company K, 144th Infantry, gave a copy of the citation to the young soldier's father. Captain Albright arrived in Vernon Sunday. The citation follows:

"Corporal Edgar Howard Heath, a member of Company K, 144th Infantry distinguished himself in action on October 13th, 1918, near Givry, France, by displaying extraordinary heroism under heavy fire. When it became evident that the company would be annihilated unless given artillery support, Corporal Heath volunteered to deliver a message to the Regimental Commander. Removing his equipment he ran two kilometers passing through a heavy artillery barrage, totally disregarding his own personal safety. Corporal Heath returned within one hour and a half reported that he had delivered the message and then fell prostrate at the foot of his Company Commander. Upon examination it was found that he had been severely wounded in the left arm while returning through an artillery barrage."

Mr. Heath was promoted to the rank of sergeant after his return from France. He arrived in Vernon yesterday morning.

HARVEST IS DELAYED BY RAIN.

T. C. Frost Says a Great Deal of Wheat Is Yet to Be Cut in His Community.

Harvesting in the Farmers Valley district is being considerably delayed by showers, says T. C. Frost, who was in town Saturday to get repairs for his binders. The farmers in that locality, he said, are probably farther behind with their grain-cutting than is the case in any other community. The wheat has been damaged very little, however, and a record yield is expected. Some men placing startling estimates on the probable yield per acre.

Mr. Frost reports that cotton prospects are not as good as might be but that sorghum and maize looks well and some corn is almost head high.

HUGGINS HONORED BY CHILDRESS COUNTY FAIR

W. H. Huggins, assistant cashier of the Waggoner National Bank of this city, has been named an honorary vice-president of the Childress County Fair at Childress.

Mr. Huggins has two brothers living in Childress and has attended several of the fairs there and one year acted in the capacity of a judge. The Childress Fair is recognized as one of the best county institutions of its kind in this section. Preparations are being made for an even greater fair this year.

Will Let Drilling Contract.

Negotiations are under way for the letting of the contract for the erection of the derrick on the Waggoner Colony Oil & Gas Company location, northeast of Harrold. All preliminary arrangements are expected to have been made and drilling started at least by August 1st. Over half of the stock has been sold. The Company is capitalized at \$60,000 on 200 acres.

Will Attend Templars' Tournament.

L. G. Hawkins expects to leave tomorrow for Dallas to attend a special conclave of Dallas Commandery No. 6, Knights Templar, which will also be a tournament attended by officers of the Grand Commandery of Texas and other prominent Masons. Mr. Hawkins is grand Generalissimo of the Grand Commandery of Texas.

OFFER MANY PRIZES FOR BOYS AND GIRLS AT 1919 STATE FAIR

Boy Making Best Record in State Will Have Choice of Scholarship at A. & M., Grubbs Vocational or John Tarlton College—Girls Offered C. I. A. Scholarship in Home Demonstration

The State Fair at Dallas, through its educational encampment, expects to host to 600 boys and 350 girls at its Victory Exposition this fall. The young people will be selected from every county in the state by competition for the best work done in the Boys' Agricultural Clubs and the Girls' Poultry and Canning Clubs. The movement is under the direction of the A. & M. College of Texas, co-operating with the United States Department of Agriculture.

County Agent N. R. Tisdale is planning to take twelve boys from this county and Miss Ohmie Wilcox, home demonstrator, announces that the quota of girls will be between ten and fifteen. County Commissioner C. L. Greene has volunteered to stand expense of the railroad fare which means that the trip will cost the delegates from Wilbarger county nothing.

Several awards are offered in addition to those offered by the fair management. Sears, Roebuck & Company of Dallas and T. B. Truitt of Ennis each offer scholarship to A. & M. College, John Tarlton College or Grubbs Vocational School to the boy making the best crop production in 1919. A scholarship to the College of Industrial Arts at Denton will be given by each the Titche-Goettinger Company and the L. H. Lewis Wholesale Dry Goods Company, both of Dallas, to the girl making the best record in home demonstration work.

The same exhibits will be used for both the county and state fairs. Following is a list of exhibits required of the girls' canning club: First year—1 quart tomatoes; 1 quart chilli sauce; 1 quart tomato pickles; 2 quarts canned fruits; 1 quart peanut butter; 1 quart tomato catsup. Second year—2 quarts tomatoes canned; 1 quart canned beans; 1 quart baby beets; 1 quart okra; 1 quart tomato and okra gumbo; 1 quart pickled onions; 1 quart soup mixture; two 12-ounce jars tomato or fruit preserves; two 12-ounce jars watermelon rind preserves. Third year—4 quarts canned vegetables; 1 quart tomato mincemeat; 1 quart cucumber pickles; two 12-ounce jars Dixie relish; four 12-ounce jars jelly; two 12-ounce jars dried vegetables; four 12-ounce jars of different fruits.

The sewing requirements follow: First year—sewing bag, cup towel holder, uniform apron. Second year—cup, uniform dress, uniform cap, emblem. Third year—sample of darning, gown, or bungalow apron, princess slip or petticoat and corset cover.

Poultry club members will exhibit the following: First year—2 pullets, one cockerel, poultry history. Second year—2 pullets, 1 cockerel, 1 dozen eggs, poultry history. Third year—2 pullets, 1 cockerel, 1 dozen eggs, poultry history, some poultry equipment such as coop, drinking fountain or anything made by club member.

ACCEPTS VERNON PASTORATE.

Elder Tom Walker of Bonham Will Assume Leadership of Church of Christ in September.

Elder Tom Walker of Bonham has accepted a call to the Church of Christ in Vernon and will arrive to assume his pastorate here on Sunday, September 14. Elder Walker was in Vernon two weeks ago to look over the situation and notified leaders of the Church Saturday that he would arrive in September.

Elder Walker has been pastor of the Church of Christ in Bonham eight years and members of the local congregation believe they are fortunate in obtaining his services.

Former Vernon Teacher Weds.

Miss Lillian Newton has received a card announcing the marriage of Chas. F. Butz and Miss Kate Forrey on June 16th in New York City. Miss Forrey was practically reared in Vernon. She taught in the local schools for a number of years and left Vernon about fifteen years ago.

STATE SENATOR WHO WAS KILLED SATURDAY NIGHT.

W. S. BELL of Crowell

LOCAL COUPLE WED IN DES MOINES, IA.

POPE COMPANY IS LOOKING FOR SAND

R. W. FERRELL MARRIED TO DAY AND WILL RETURN ABOUT JULY 1.

R. W. Ferrell and Miss Merle Lloyd were married in Des Moines, Iowa, about 9 o'clock this morning. The couple left at eleven o'clock for Kansas City to spend several days visiting friends and will arrive in Vernon by July 1. Mr. and Mrs. Ferrell will be at home after July 15 in the residence recently purchased from N. R. Heath in West Vernon, and at present occupied by Daniel Bond. The bride has been visiting her brothers in Des Moines about two months. Mr. Ferrell left Vernon a week ago yesterday.

The groom, a young man of sterling qualities, is well known in Vernon and surrounding territory. He came to Wilbarger county from Mississippi when but a youth and has prominently identified himself with business interests in Vernon for a number of years.

He is at present owner of the White Garage in which business he has been engaged for some time. There is probably no man in Vernon who commands a higher respect. He is a son of the late Mr. and Mrs. W. S. Ferrell.

The bride is an only daughter of Rev. and Mrs. S. E. Lloyd. She received her education in York College in York, Nebraska before moving to Vernon a number of years ago. She is one of the most accomplished young women in Vernon, having been active in literary and social circles. Her list of friends is limited only by her acquaintances.

A host of friends will join The Record in wishing Mr. and Mrs. Ferrell many years of happiness.

DRILLING AT 750 FEET AND EXPECTS TO FIND OIL SHORTLY.

DRILLING AT 750 FEET AND EXPECTS TO FIND OIL SHORTLY.

The Pope Oil Company is drilling at 750 feet on their location northeast of Harrold and expect some time this week to strike an eighteen-foot sand which was encountered on an adjoining section at a depth of 867 feet in a test made several years ago. The Company is using Standard cable tools.

Geological reports on this section are flattering and the fact that interest is to a large extent centered in this field is evidenced by the many locations. The number of derricks being erected in the northeast portion of the county is giving the appearance of Electra or Burkhardt.

The Pope Company is capitalized at \$50,000 on 180 acres. The subscription books were closed on May 24 and stock recently sold for \$230.

Walter C. Roberts in Hospital.

Walter C. Roberts of Oklaunion arrived from overseas two weeks ago and is in the base hospital at Fort Sam Houston, San Antonio. The Oklaunion soldier enlisted with Captain Baker's company and left Vernon soon after war was declared. He was on the front twenty-three days and came out without a scratch. He was transferred to the 1st Division after the armistice was signed.

Appellate Chief Justice Here.

Judge S. P. Huff, chief justice of the Court of Civil Appeals at Amarillo, is here to spend a few days looking after business matters. Judge Huff formerly lived in Vernon and has many friends here.

M'CALEB DERRICK MOVED 300 FEET

DRILLING ON TEST NEAR DOANS WILL COMMENCE AT EARLY DATE.

The derrick for the Harrington-Robinson well on the W. M. McCaleb farm near Doans has been moved about 300 feet south of the original location, preparatory to an early commencement of drilling operations.

Casing, machinery and fuel is being moved to the drilling site and actual drilling will be started within the next few days, it is learned. The Harrington-Robinson headquarters are in Joplin, Mo., and they own leases on about 4,000 or 5,000 acres adjacent to the location for the well. Elliott Brothers have the drilling contract.

The McCaleb well is the oldest oil enterprise in the Doans country. It was first undertaken more than a year ago but delays for various reasons have postponed the beginning of operations. Some three months ago when the Neal-Hamilton was organized on acreage west of the Harrington-Robinson holdings interest in the Doans country was revived and that territory is being "played" by oil operators as one of the most promising sections of Wilbarger county.

Staley Open for Business Again.

C. R. Staley was in Vernon Saturday and informed the Record that he was opening his office again to do a general wholesale oil and gas business. Mr. Staley has been at Wichita Falls for the past few months and has not had time to give attention to his business here. Mr. Staley says he looks for a big business this year.

ONE KILLED, TWO HURT IN CROWELL SHOOTING AFFRAY

W. S. Bell, State Senator, Fatally Shot Saturday Night and Was Buried Yesterday—His Son and J. A. Gafford Were Wounded—Three Arrests Are Made.

State Senator W. S. Bell is dead, and Everett Bell, son of the Senator, and J. A. Gafford are suffering from wounds as the result of a shooting affray in Crowell Saturday night. Mrs. J. A. Gafford is suffering from a bruise on her head, supposed to have been inflicted by being struck with a gun. Senator Bell died about three hours after the shooting.

The tragedy occurred in front of the air-dome moving picture show about 10:30 o'clock just as the crowd was leaving the place following the performance. According to the most reliable information, Mrs. Gafford entered the crowd, drew a pistol and attempted to fire at Fred Bell, son of the Senator, who married a daughter of Mr. and Mrs. Gafford December 8, 1918. The young woman died very suddenly February 10, 1919. The pistol snapped and young Bell escaped unharmed.

An effort was made to overpower Mrs. Gafford, it is said, by Senator Bell and his son, Everett. It was during this that the two men were wounded, the father mortally and the son more or less seriously. A number of shots were exchanged. Mr. Gafford was wounded in the hip. Both Mr. Gafford and Everett Bell are expected to recover.

Mr. and Mrs. Gafford and their son, Gorden, have been arrested.

Funeral Largely Attended.

Funeral services for Senator Bell were conducted yesterday afternoon at 4 o'clock at the Baptist Church in Crowell by Rev. C. E. Lindsey of Fort Worth, a former Methodist pastor at Crowell. Burial in the Crowell cemetery was under the auspices of the Masonic fraternity. An escort of honor or for the remains was made up of Knights Templar from Vernon Commandery.

The dead man is survived by his wife and five children. He also has one brother, J. W. Bell, who is a prominent farmer and business man of Foard county; and three sisters, Mmes. J. T. Gribble, W. L. Ricks and B. B. Brogdon, all of whom live at Crowell.

The funeral was one of the most largely attended ever held in this section. Scores of friends from Foard and neighboring counties were present.

About forty Masons and others from Vernon attended. Judge S. P. Huff, chief justice of the Court of Civil Appeals at Amarillo, who was in Vernon, attended the funeral. He had known the deceased for years.

Senator Bell was born in North Carolina March 18, 1868. He went to Foard county with his parents and other members of the family when a young man about thirty years ago. He and his brother became owners of large tracts of farming land and later engaged in different lines of business, including banking, milling and grain brokerage. They also owned considerable business property in Crowell, county seat of Foard county.

"I have great faith in Wilbarger's oil prospects. The county is looked upon by oil men as the next big sensation. My associates and I are playing both Wilbarger and Tillman counties, but we are playing them in the proportion of about five to one in favor of Wilbarger county. The ten or twelve wells going down in Wilbarger county now are not a thorough test. All of them may be dry and yet later on we would find oil," he continued.

"It takes money, credit and nerve to win in the oil game," Mr. Green said. "The whole thing hinges on the bankers," he added, and advised Vernon bankers not to make the mistake of under-estimating the importance of oil financing.

Mr. Green said he still regarded Vernon as his home and had never intended living anywhere else. This statement was applauded.

Newcomer Surprised at Vernon.

Charles R. Buckley, recently appointed manager of the Texas Public Service Company, said when he came here a few days ago from New York he found a much better town than he had expected.

"It was very agreeably surprising," Mr. Buckley said. "You have a spirit of enterprise here that older towns in the North and East do not have," he added.

R. A. Liles of Brownsville, Tenn., who is here with a view of locating, said Vernon is the best town he has ever visited in Texas and predicted a wonderful future for the city, both as an oil and agricultural center.

"Invest" in Chamber of Commerce.

"Don't call your subscription to the Chamber of Commerce a contribution, but figure it as an investment," said Daniel Bond, president of the organization and general manager of the Vernon Cotton Oil Company. "The people

Ovation Is Given Speaker at Chamber of Commerce Banquet When He Pledges One-Tenth of Any Amount Subscribed — Unbounded Confidence in Wilbarger County.

Unbounded faith in the future of Vernon as an agricultural and oil center was expressed by speakers at the Chamber of Commerce get-together banquet at the Masonic Temple Friday night. There was not a dissenting voice to the proposal that a big budget be raised for this year's work. Many of the old members doubled their pledges of former years and some who had never before been members of the organization made pledges ranging from \$100 to \$300 per year. Pledges made at the banquet totaled \$4,724, and numerous parties said they would make subscriptions but did not name any amounts.

Clois L. Greene, who was one of the speakers, received an ovation when he said he would give ten per cent of any amount that is pledged and expressed the opinion that a budget of from \$10,000 to \$20,000 should be raised. He gave his check for \$500 and said more would follow.

Other pledges reported were the Herring National Bank \$360, Waggoner National Bank \$360, Vernon Cotton Oil Company \$360, Farmers State Bank \$240, Perkins-Timberlake \$240, Dixon Dry Goods Company \$240, The Vernon Record \$240, H. C. Russell & Son \$240, Kell Milling Company \$240, H. F. McElroy \$200, J. H. Pendleton \$120, O. B. Dawdy, W. O. Anderson, Blackwood, Larimore & Oats, and H. L. Coleman gave \$100 each. Brunson & Williams subscribed \$84. C. R. Staley, J. C. Morrison and Webb & Rogers each subscribed \$300.

It is believed with this beginning a budget of \$10,000 will be raised with little difficulty.

Will Take Time to Develop Oil.

Clois L. Greene, speaking of the statement that this year will reveal whether Wilbarger county is to be a great oil field, urged patience. "It takes time," he said. "It required ten years to develop Wichita county and there are 1,200 to 1,500 dry holes in Wichita county. In Wilbarger county we have ten dry holes. The ten or twelve wells going down in Wilbarger county now are not a thorough test. All of them may be dry and yet later on we would find oil," he continued.

"I have great faith in Wilbarger's oil prospects. The county is looked upon by oil men as the next big sensation. My associates and I are playing both Wilbarger and Tillman counties, but we are playing them in the proportion of about five to one in favor of Wilbarger county. The ten or twelve wells going down in Wilbarger county now are not a thorough test. All of them may be dry and yet later on we would find oil," he continued.

of other parts of the country have their eyes on Wilbarger county and we need only to advertise our resources to attract much outside capital," Mr. Bond said. He told of an incident recently in New Orleans while he was there on business. A syndicate of New Orleans business men had been formed with a capital of \$10,000 to be invested in Wilbarger county, he said.

"We ought to spend \$5,000 in advertising in the next six months and my company will increase its investment in the Chamber of Commerce from \$180 to \$360," he said in conclusion.

O. B. Dawdy, W. A. Atchison, J. D. Sumner, F. W. Grogan, W. C. Baker, Mayor Harry Mason, L. K. Johnson, T. L. Rouse, R. H. Nichols and A. C. Raynor were included in the list of speakers.

Mr. Raynor called attention to the importance of employing a good secretary. "It is practically impossible to pay the right sort of man too much. But one of the quickest ways to kill a Chamber of Commerce is to require the secretary to personally collect dues and do other detail work. All it depends on the secretary," he said.

Parade Presides.

J. D. Parnell, who is retiring from the secretaryship of the Chamber of Commerce after a service of three years, presided at the banquet. In his introductory remarks he emphasized the opportunity that is now presented to the city to go forward. He said the business man in the future who refused to do his part will see his business go to more enterprising competitors.

"We don't intend to permit some men to sit by and reap the benefits of the enterprise of other citizens," he said, and told of a recent occurrence where a group of men interested in a certain line of business were discussing the necessity for making some purchases in a certain line. The name of one dealer was suggested but one of the group called attention to the fact that this particular man had not been doing his share in public matters, and all of them agreed that he would have none of their patronage as long as he persisted in that attitude.

"We want to be fair and we don't want to do any man an injustice, but at the same time when it becomes necessary we want every citizen to know that he can't sit back and let other men finance the Chamber of Commerce and perform other public duties and get by with it," Mr. Parnell said. "The lines are going to be drawn," he added, "and the public will be informed as to what business firms in the city are refusing to do their part."

The banquet was one of the most largely attended affairs ever held in Vernon. About 125 men were present and the spirit of optimism prevailed throughout the meeting. When Mr. Parnell put the question as to how many present would at least double their dues to the Chamber of Commerce, practically every man stood.

W. J. Stewart of the Elk Cafe served the banquet.

Former Teacher Moving Back.

A. F. Reubusahn, former teacher of biology, chemistry and physics in the local high school, is moving back to Vernon from Gainesville, where he taught last year in the Gainesville high school. Mr. Reubusahn is accompanied by his wife, but is undecided just what business he will engage in.

Liberty Down 700 Feet.

The well of the Liberty Oil and Development Company, near Harrold, is drilling at a depth of 700 feet, according to P. H. Robinson, secretary, who is spending most of his time on the company's acreage. Drilling was commenced only eight days ago. Standard cable tools are being used.

62 GET SPECIAL RED CROSS AWARDS

T. H. SHIVE AND W. H. HUGGINS
ARE ONLY MEN GIVEN
RECOGNITION.

Mrs. O. T. Warlick, secretary of Wilbarger county Chapter of the American Red Cross, has received the certificates of awards and badges that are to be awarded to 52 members of the local chapter and auxiliaries who gave 800 hours work and more to the task of winning the war. Of this number five were in the 1,600 hour class and two in the 2,400 hour class. Ten members will also receive badges and certificates for 400 hours work during the influenza epidemic.

Two posthumous awards are to be given for Mrs. W. S. Ferrell on knitting and Mrs. E. A. Culberhouse for nursing. Two men will receive the decoration.

The secretary asks that all who are entitled to awards to come to the Red Cross office next door to the Bailey Hotel in the afternoon between 3 and 7 o'clock. The badges are gold and blue with the insignia of the Red Cross and will cost each person eligible one dollar.

The following are entitled to the awards: Misses Sallie Allingham, Mary Cox, Sallie Roberts, Mmes. L. L. Bryant, S. W. Bailey, W. D. Berry, Minnie Byrd, M. A. Baker, E. A. Culberhouse, J. T. NO GREAT RICHES, BUT FOOD IN PLENTY FROM BACK YARD POULTRY

Too many poultry stories read like fairy tales in which Aladdin is often represented as rubbing his magical lamp and converting poultry poverty into flock prosperity. Unlike such warping of the truth, this is the story of an actual experience of a backyard poultryman who was not able to buy an automobile from his flock profits, but who did furnish fresh, nutritious food and an abundance of it for his family table, in addition to enjoying his work.

The attractive and serviceable poultry house designed and constructed by this suburbanite cost less than \$400 when it was completed in 1914. It has a concrete floor, roosts, trap nests, a water system, and other hen house necessities. It is a pleasure to look at this hen house, which would be really ornamental to the backyard of any thrifty American.

The building is 12 by 18 feet, and is divided into three pens with an aisle at one end. The house is 7 1/2 feet high from the floor to the front eaves and 6 feet at the back. Yellow pine drop siding of medium quality was used for sheathing and roofing purposes, the latter being overlaid with prepared, stone-surface, asphalt roofing. Adjoining the house, with direct access to it, are four pens, one of which is used for small chickens, being inclosed with one-inch mesh chicken wire.

Plenty of Light From Windows.

The windows are an attractive feature of this house. They cost complete \$1.50 apiece, those at the side being bungalow windows of large and odd size which the dealer was glad to get rid of. The front windows can be opened both at the top and bottom for ventilation. The side windows, which help to provide free circulation of air, are practically weather-proof, as they are hinged at the bottom and swing inward. The material for the floor of this house cost \$12, the owner laying the concrete floor during the evenings by aid of an oil lantern.

To begin with, this poultryman had only 15 hens while his capacity record has been 60 mature hens and pullets. A novel feature of his poultry operations was the maintenance of a number of Belgian hares which he raised for meat. One pen in the chicken house was equipped with 4 rabbit hutches designed according to the directions of the United States Department of Agriculture. In the main he raised Belgian hares only during the fall, winter and early spring up to the time of the setting season when the space occupied by the rabbits was needed by the hens. Then he would reduce his rabbitry to the minimum.

The following of the Odell boys who were in the Thirty-Sixth Division have arrived home: Carl Wynn, Clarence Crain, Alford Turner, Charlie Tidmore and Ted Cade.

Mr. and Mrs. Reynolds and family of Fannin county visited their daughter, Mrs. V. G. Martin, of this place the last week, returning home Thursday. They made the trip in their car.

ing the young bearing season he would feed the does a little skim milk and a small amount of oats, but never more than one quart of oats a week. In the course of two years he raised and ate about 75 rabbits, weighing an average of two pounds apiece. All this meat was produced as a by-product of his poultry operations with small expense or trouble.

Another desirable point about the rabbits was that they required little care as compared with poultry. The rabbits were fed at any time of the day or night with satisfactory results. "It is a comparatively simple matter to kill and dress two rabbits in ten minutes," remarked the suburbanite, "but I never was able to pick and dress a single chicken in less than double that period. My family did not tire of the rabbits, because, as a rule, we alternated the rabbit flesh with chicken and other fresh meats. The profits which I realized from my poultry and rabbit operations came entirely from the Belgian hares, as my White Plymouth Rocks only about paid expenses, since I had to purchase practically all my feed for them. However, it is a great convenience for a suburbanite to have on hand two sources of fresh meat in addition to a plentiful supply of fresh eggs."

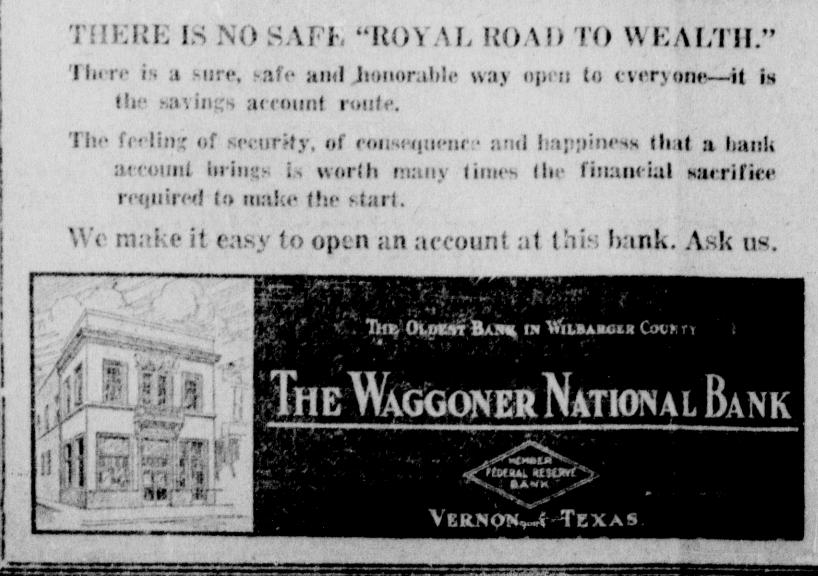

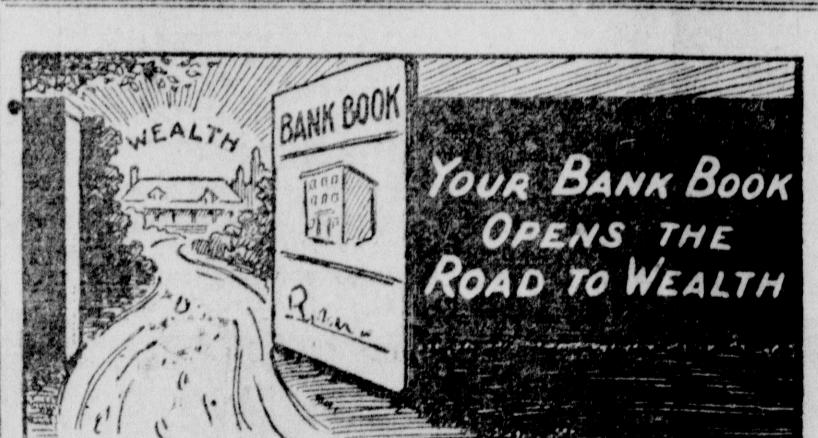

Rabbit Cost Little to Keep.

The remarkable thing about these rabbit-raising operations was that valuable food was produced from weeds and waste, as practically the only feed for the rabbits was grass clippings, wild hay and weeds. Dur-

GERMANS WILL SIGN.

Associated Press dispatches say that the German Government has formally communicated its willingness to sign peace terms unconditionally. This was done after a plea for an additional forty-eight hours in which to consider had been refused.

The Germans declared the terms as impracticable and said their signature is given under duress. Protests were made against the clauses concerning reparations, the forfeiture of colonies and others. The note concluded by saying that the Germans will sign, with reservations relative to the turning over of those alleged to be guilty of crimes and also the admission of guilt of Germany in causing the war.

While this clears the atmosphere, it does not mean that Germany accepts the treaty. She signs against her will. Then what will the signature be worth?

Germany signed willingly the treaty guaranteeing the neutrality of Belgium. When opportunity came this was violated without hesitation. Has Germany apparently had any change of heart that would lead one to believe that her leaders will hesitate more to violate a treaty, signed under duress, than they hesitated to violate Belgium's neutrality?

With these conditions, can it be doubted that only a permanent coalition of the Allies behind the treaty will insure its conditions being fulfilled? Despite the wisdom of Senator Knox, and his crowd, does it not seem reasonable that only a league of nations can insure that this joint will can be brought to bear on Germany in a way that will secure compliance with the terms of peace?

PLANNING FOR DROUGHT YEARS.

Texas has an abundant supply of moisture, and to many it will seem foolish to talk about planning for drought years. The foreseeing man will make just such plans. He knows that periods of drought will come, and when they do it is the farmer who has worked according to plans made for such a time who wins.

Clean tillage is necessary according to the State Experiment Station. Early and thorough preparation of the soil is considered of highest importance. It permits the soil to take in such rain as may come, helps prevent washing of the land, and stores up a great amount of water for use later on.

Wilbarger county had ample evidence during recent years of the value of thorough preparation of the land. While a majority of land owners were worrying for lack of rain, more than one farmer "just keep on plowing," and these were invariably the most prosperous men in their respective communities.

The purchase of land for another small park in Vernon is gratifying. Some may feel that the money could well have been spent on parks already owned by the municipality. While it is unfortunate that more funds are not available for the improvement of these best places, the amount will increase, and the im-

SOLDIER DESCRIBES WAR EXPERIENCES

AUBREY FOSTER SAYS GERMAN CIVIL POPULATION FEARED AMERICANS.

Scenes witnessed by men in the Ambulance Corps while in action in France were depicted by Aubrey Foster, son of L. A. Foster, in an address at the Baptist tabernacle Sunday night. Aubrey was attached to the 90th Division and was discharged last week.

"We worked immediately behind the lines and witnessed some horrible scenes," the returned soldier said. "Many times when we would go to pick up wounded soldiers they would put their arms around our neck and beg for mother and home. In instances where several men would be blown into atoms by a high explosive shell, pieces of their bodies would be gathered together and we would bury it, calling it one soldier. Where the 'dog tags' still remained around a dead soldier's neck one would be taken off and tacked on the head board and the other left on his body. This was the method of identification used and was very unreliable for it was such an easy matter to get the bodies mixed up."

"We would have to place the wounded men in all sorts of places while giving them medical attention. At one place we were obliged to use a dugout almost half full of water. Wire strung above the water supported racks on which the wounded were placed."

"The German people were afraid of the American soldiers," said Mr. Foster in speaking of the advance into Germany. "They would not venture out of the houses but would peep from the doors and windows. Later their fear was banished and they became friendly. They furnished us good beds and we were well fed. A peculiarity of German houses is that they are all built together and of stone. Very little wood is used. Cows, pigs and chickens are kept in rooms adjoining those which the family uses."

MISS WILCOX GIVES TWO WAYS OF PRESERVING EGGS

Miss Ohmie Wilcox, home demonstrator for Wilbarger county, urges that full advantage be taken of the present oversupply of eggs to preserve and save for winter and fall when the hens stop laying. Experiments have shown, Miss Wilcox said, that eggs laid in April, May and early June will keep better than those laid later in the season. The eggs should be fresh, clean and if possible infertile.

Following is what is known as the water glass preservative method:

Use 1 quart of sodium silicate to 9 quarts of water that has been boiled and cooled. Place the mixture in a 5-gallon crock or jar. This will be sufficient to preserve 15 dozen eggs and will serve as a guide for the quantity needed to preserve larger numbers of eggs.

Select a 5-gallon crock and clean it thoroughly, after which it should be sealed and allowed to dry.

Heat a quantity of water to the boiling point and allow it to cool.

When cool, measure out 9 quarts of water, place it in the crock and add 1 quart of sodium silicate, stirring the mixture thoroughly.

The eggs should be placed in the solution. If sufficient eggs are not obtainable when the solution is first made, additional eggs may be added from time to time. Be very careful to allow at least two inches of the solution to cover the eggs at all times.

Place the crock containing the preserved eggs in a cool, dry place, well covered to prevent evaporation. Waxed paper covered over and tied around the top of the crock will answer this purpose.

As an alternative, the lime method is recommended as follows:

When water glass cannot be obtained, the following method may be used in its stead. Many consider this method entirely satisfactory, though instances are known where eggs so preserved have tasted slightly of lime.

Dissolve 2 or 3 pounds of unslaked lime in 5 gallons of water that has previously been boiled and allowed to cool, and allow the mixture to stand until the lime settles and the liquid is clear. Place clean, fresh eggs in a clean earthenware crock or jar and pour the clear lime water into the vessel until the eggs are covered. At least 2 inches of the solution should cover the top layer of eggs. Some times a pound of salt is used with the lime, but experience has shown that in general the lime without the salt is more satisfactory.

POOR ROADS OR GOOD ROADS— THEY AFFECT COST OF FOOD

The man who never gets out of sight by the restrictions on the supply and transportation of materials which had to be brought from a distance. None escaped the difficulties which followed the great and rapid increase in traffic at this country's entrance into the war. From New England to the Pacific Coast new demands were made upon the highways, and unusual conditions developed everywhere in maintenance and construction. In several States high type roads, which had originally been constructed without sufficient foundation to meet the new demands, had to be rebuilt, and part of this construction work was carried on while the heavy traffic was kept moving.

The extensive use of motor trucks for transportation during war time has emphasized the possibilities of well-built roads as a means of marketing farm and other products. Solving road problems where there was a constant procession of heavily loaded trucks traveling over them has been a great lesson to road officials, which will be put to good use in peace times.

The Federal aid road-building program for this year is the most stupendous in the history of the world.

The expenditures for road construction for the year are likely to reach \$500,000,000. Plans have been made for the construction of continuous highways, the States through which the highways are to pass cooperating with each other as never before. Improved roads will run from one large marketing center to another.

Free Trucks, Added Appropriations.

More than \$45,000,000 worth of motor trucks, to be used in road construction work, will be distributed by the

Bureau of Public Roads to the State Secretary of Agriculture through the highway departments. These trucks, about 20,000 in number, have been declared surplus by the War Department, and all that the States must do to acquire them is to pay the loading and freight charges. The trucks range in capacity from two to five tons. 11,000 of them are new, and all are declared to be in serviceable condition. They will be apportioned to the States only upon request of the State highway departments on the basis of a request received from the respective States with the apportionment provided in the Federal aid law approved in 1916. The requirements of the law are such that none of the trucks will be distributed to counties or individuals.

Further interest in the nation-wide need for good roads is shown by the fact that shortly before the last session of Congress adjourned that body made an extra appropriation of \$220,000,000 in the Post Office appropriation bill to meet the Federal part of the road-building program. This is the largest appropriation ever made by any government for a similar purpose, say government officials of the Department of Agriculture.

The Spirit Of Independence

in a Nation comes from a feeling of equality--of fitness and self-respect.

This feeling is the outgrowth of a knowledge that the Nation is properly fitted and groomed to take its place among the Nations of earth.

And so it is with the Man. Ill-fitting clothes of questionable style can never breed that feeling of equality, independence, and self-respect so necessary for success. If a man is to rise—if he is to take a place of importance among his fellow-men he must be well and properly groomed—he must "dress the part."

Our clothes are success builders. They are an investment in personal prosperity—in financial and mental independence. Come in and look them over. What better time to don one of these faultlessly tailored suits and arouse your spirit of independence than on Independence Day?

PAYS \$2,000 FOR 12-MONTHS-OLD DUROC JERSEY PIG

Daniel Bond, Owner of Vernon Duroc Jersey Farm, Probably Owns Highest Priced Porker Ever Brought to Texas—Already Read His Fine Herd—Attracted Attention Over Country.

Two thousand dollars is the price paid for a Duroc Jersey boar received last Sunday by the Vernon Duroc Jersey Farm, owned by Daniel Bond, from the Pine Crest Farm at Charleston, Miss. C. W. Trigg, manager of the farm, is of the opinion that this is the highest price ever paid for a hog in Texas.

The animal is but twelve months old, and while at present it is in bad condition owing to its long ride, Mr. Trigg believes it will develop into a 1,900-pound animal. Men who saw the porker say it is one of the most perfectly formed animals they have ever seen.

The purchase of the animal from the Pine Crest Farm rounds out one of the best herds of thoroughbred hogs in the state, says Mr. Trigg, including some prize winning sows and pigs.

Mr. Bond's herd of Duroc Jerseys has attracted attention throughout the country. He bought his foundation stock from some of the best herds in the country and is developing a distinctive strain of his own. Representatives of the farm have taken prizes wherever shown. Mr. Bond has not spared expense in getting good stock and he is of the opinion that this is the best way to make money out of the hog business. It requires money to start but the profits are bigger once the business is started.

"NO ACCIDENT" WEEK IS OBSERVED BY RAILROADS

This week has been designated by Hale Holden, regional director of the Central Western Region as "No Accident Week." Approximately 365,000 railway employees in this division were asked to sign pledges to use every effort to operate the roads seven days without a personal injury.

The campaign for no accidents will be facilitated by 400 committees of safety who work under regulations prescribed by the United States Railroad Administration. Great efforts are being made to reduce the railroad accidents and it is thought that "No Accident Week" will add great impetus to the safety work. Officials agree that the campaign is timely as to the roads leading in to Vernon. Several accidents of a severe nature have been reported in this section within the last two days.

J. N. Parsley Will Move to Town.

J. S. Blanton has sold his residence on West Texas street to J. N. Parsley. Mr. Parsley is planning to move from his farm sixteen miles southwest of Vernon to his new home here about September 1. He is making the change in order to get the benefits of the city schools. The deal was negotiated by Rogers & Jackson.

Efficiency Medal for John Lutz.

NEARLY a half million Buick Valve-in-Head Motor cars are in service—and the most remarkable phase of that fact is the unusual length of each Buick car's service.

There is no magic about the long life of Buick cars. Their owners simply get from them the life, the stamina that is built into each one of them.

Today motorists accept Buick longevity for its character of construction and individual endurance.

BUILD NOW!

"More Americans Should Own Their Homes."

Somewhere in the heart of every man is the desire to be INDEPENDENT. Independence is the measure of one's standing in the community.

The first step along the road to independence is to own one's home. The man who owns his own home is the respected, the trusted man in every community.

One of the largest employers of labor in the country ordered a canvass of his factories to determine what percentage of his employees owned their own homes. At the same time he urged all employees in the establishment to become home owners or home buyers.

Sound logic prompted this action. The responsible man is the valuable employee. The HOME OWNER has a deeper sense of civic pride. He is established; he is responsible; he is interested in everything that tends toward the peace and security and up-building of the community.

The example set by one manufacturer will be followed by others. It will daily become more requisite to a man's securing responsible employment that he Owns His Own Home.

There is little excuse for a man not owning his own home. The great Liberty Loans have instilled into the American people lessons of thrift that will endure through the coming days of peace. Every man can and should own his own home.

There is no appeal from the man who seeks a position that is treated so lightly, by private and public employer alike, as the appeal which comes from the man who has everything to gain and nothing to lose.

The INDEPENDENT MAN always Owns His Own Home—BUILD YOURS NOW.

Home Ownership Is Essential to Success

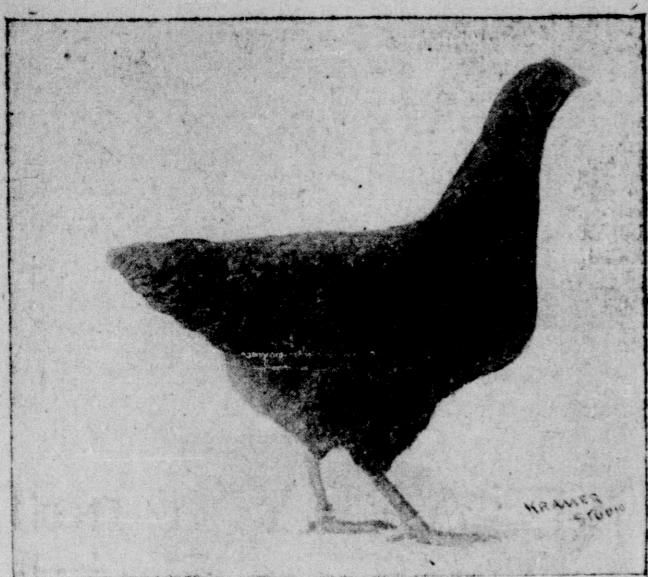

You Can Build Now as Cheap as Later On.

The Beauty of Truth

"Beauty is truth; truth beauty.
That is all ye know on earth
And all ye need to know."

So says John Keats, in his "Ode to a Grecian Urn."

Beauty lies in the natural—the simple—the real. Artificiality is not art—it is the grossest betrayal of an artistic ideal to strain and extend and elaborate it beyond nature.

The NEW EDISON

HARROLD MAY BUY COMMUNITY CANNER

THIRTY-FIVE WOMEN HEAR DISTRICT AGENT TALK OF HOME ECONOMICS.

Thirty-five Harrold women heard Mrs. Dora R. Barnes yesterday discuss various phases of home economics, with special relation to the community canner. Mrs. Barnes is district agent, and was here inspecting the work of Miss Ohmie Wilcox. Harrold may buy a cannery.

Mrs. Barnes was enthusiastic in her praise of Miss Wilcox for work done in home economics. Odell, Tolbert and Oklahoma have installed community canners, and about a dozen individuals over the county have bought modern canning apparatus. This means tremendous saving of food. Mrs. Barnes pointed out, and told her audience that the food shortage is yet acute. She predicted that prices will remain high, and urged the saving of all food produced in the county.

A special report will be sent to Washington of the work Miss Wilcox is doing, Mr. Barnes said.

Vernon soldiers continue to arrive with their red chevrons. Practically all of those who were attached to the 142nd Infantry, Thirty-Sixth Division, have arrived and the men returning during the last two or three days have been, for the most part, from the 14th. Some who were in the Ninetieth Division have not been demobilized but are expected home within a few days.

Captain E. O. Youngblood arrived Sunday on leave from Camp Bowie to spend a few days in Vernon with his parents, Mr. and Mrs. T. J. Youngblood. He has not been discharged but is expecting his order within the next few days.

Captain Paul Albright arrived Monday on leave from the same camp for a visit with his mother, Mrs. Leila Albright. Captain Albright believes he will be discharged at an early date.

Lieutenant Lloyd Brown, also of Camp Bowie, arrived this morning for a several days' visit with friends here. The lieutenant entered service from Vernon but his parents have since moved to Washington.

Among those who have arrived with discharges are: Ava White, Clint Swartwood, Fred Dalmasso, Lloyd Fowler, Sam Fowler, Howard Heath, Waggoner Jolly, R. Clyde Smith, Guy Turkett, Clarence McGill, Cook McGill, Seaford McKee, Wayman McChambe, and C. O. Lightsey.

Ed Stanley made a business trip to Electra Friday.

PAIGE
The Most Beautiful Car in America

The Great Outdoors

In summer it is a splendid treat to leave the noisy, sweltering city far behind you and get out into the "Open Place" where the air is pure and nature looks at her best. It means healthy recreation for every member of the family. It means better spirits, stronger lungs, brighter faces and keener appetites. It means a new conception of the joy of living.

A Paige five-passenger "Linwood" will make such excursions possible with maximum comfort and minimum expense. That powerful six-cylinder motor is unfailing—the spring suspension turns every road into a Boulevard. All you need is a little gasoline, oil and water. You can then depend upon your car to do the rest.
